 Chennai, Tamil Nadu

PROFESSIONAL SUMMARY

Data & Business Intelligence Analyst with 5+ years of experience delivering automated reporting, KPI frameworks, and decision-support dashboards using Power BI, DAX, SQL, and Python. Proven track record of transforming manual reporting into scalable BI solutions, reducing reporting effort by 45%, improving operational efficiency by 30%, and increasing stakeholder adoption of analytics by 60%. Strong domain expertise in Banking, Insurance, and Finance, with the ability to translate complex data into actionable business insights.

TECHNICAL SKILLS

BI & Visualization: Power BI, DAX, Power Query
Data & Databases: SQL, MySQL, Excel, Google Sheets
Programming: Python
Automation: Power Automate, SharePoint, Dataverse Concepts: Data Modelling, KPI Design, Reporting Automation, Dashboard Development

PROFESSIONAL EXPERIENCE:

DATA ANALYST – Sharp and Tannan -Chartered Accountants– Chennai, Tamilnadu (March 2024 – June 2025)

- Transformed manual audit and finance reporting into automated Power BI solutions, reducing manual reporting effort by 45% and improving data accuracy.
- Developed KPI-driven dashboards for inventory and fixed asset verification, enabling audit and finance teams to monitor discrepancies and compliance in near real time.
- Led end-to-end Power BI deployment (data modeling, DAX, publishing, refresh configuration), increasing stakeholder adoption by 60% and reducing Excel dependency.
- Standardized reusable datasets, measures, and dashboard templates to scale reporting across finance and audit functions.

BUSINESS ANALYST /DATA ANALYST – Alliance Group – Chennai, Tamil Nadu (May 2022 - February 2024)

- Led stakeholder workshops to define reporting requirements, translating business needs into KPIs, dashboards, and structured data models.
- Designed and tracked operational KPIs through BI reporting, enabling process improvements that increased efficiency by 30%.
- Automated approval and reporting workflows using Power Automate + SharePoint + Teams, reducing manual follow-ups by 40%.
- Prepared BRDs, FSDs, and reporting documentation, strengthening governance and audit traceability.

BRANCH MANAGER- Kotak Mahindra Life Insurance – Trichy, Tamil Nadu (May 2015 – Apr 2022)

- Analysed branch performance, revenue, and service KPIs across three branches to support operational planning and leadership decisions.
- Conducted risk and compliance analysis, improving service quality metrics and audit readiness.
- Evaluated cross-sell and retention initiatives using performance data to drive targeted team improvements.

FREELANCE TRAINER – FITA -Academy– Trichy, Tamil Nadu

- Trained 20+ learners on SQL, Python, Power BI, and Excel through business-focused analytics projects.
- Designed real-world datasets, dashboards, and case studies to strengthen data storytelling and reporting skills.

PROJECTS:

RESUME AI RESUME CRITIQUE -Github: <https://github.com/vijay-93/Automated-Resume-Evaluation-Skill-Gap-Analyzer>

Developed a Python-based AI Resume Critique using Streamlit and OpenAI APIs. Built document ingestion and text extraction pipelines for PDF, DOCX, RTF, TXT, and HTML using PyPDF2, python-docx, and BeautifulSoup. Implemented prompt-based NLP analysis, resume validation, scoring, and skill-gap recommendations with curated learning resources. Tech: Python ,OpenAI,Streamlit,NLP

GEN AI ANALYTICS DASHBAORD -Github: <https://github.com/vijay-93/Generative-AI-Dashboard>

Built an interactive Power BI dashboard using LLM prompt log data (e.g., GPT-4, GPT-3.5). Visualized prompt categories, response time, user ratings, and usage trends. Used DAX for KPIs like average response time, star rating logic, and temporal analysis. Tech: Power BI, DAX

CREAT CARD DEFAULT PREDECTION -Github:<https://github.com/vijay-93/Credit-Card-Spending-Habits-in-India>

Utilized Power BI to analyze over 26,000 transactions and identify patterns related to different types of transaction fraud. Performed data cleaning and transformation using Power Query to ensure accurate and consistent datasets for analysis. Developed DAX-based KPIs and interactive visualizations to deliver actionable insights and support data-driven decision-making. Tech: Power BI, DAX

AIRLINES CUSTOMER SATISFACTION DASHBAORD -Github: https://github.com/vijay-93/Airline_Customer_Satisfactory

Developed an interactive Power BI dashboard to analyze customer satisfaction and identify which customer segments were most satisfied. Integrated and transformed survey and operational data using Power Query to ensure clean, reliable reporting. Visualized key metrics including service quality, flight delays, seat comfort, and overall satisfaction, and implemented slicers and filters to enable real-time insights by airline, route, and customer segment. Tech: Power BI, DAX

EDUCATION:

MASTER OF BUSINESS ADMINISTRATION – Anna University – Chennai (Jun 2013 - May 2015)

BACHELOR OF COMMERCE – Bishop Heber College – Trichy (Jun 2010 - May 2013)

CERTIFICATION:

Professional Certificate Programme in Data Science and Artificial Intelligence for Manager
Power bi desktop certification
